PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 5+ years of experience building scalable, real-time web applications across .NET Core, JavaScript, TypeScript, and Angular. Skilled in both frontend and backend development with a strong emphasis on clean architecture, test automation, CI/CD, and DevOps practices. Known for clear communication, proactive initiative, and delivering high-quality solutions in collaborative, transparent teams.

TECHNICAL SKILLS

Languages: C#, JS, TS, HTML, CSS

Frameworks: .NET Core, Angular, Node.js

Testing: Cypress, Jest, Test-Driven Development (TDD)

DevOps & Tools: Git, Docker, Azure DevOps, Terraform, CI/CD pipelines

Cloud Platforms: Microsoft Azure (Functions, App Services, Storage, etc.)

Databases: SQL Server, Entity Framework, MongoDB

PROFESSIONAL EXPERIENCE

Software Engineer – BISCIT

Dates of Employment: 2025 – Current

- Developer on the Epicor Kinetic Warehouse (EKW) app
- Stack: Angular, Cordova, java
- Led initiatives for the development of new features
- Write quality, easily testable code to drive communication between the backend and UI
- Triage and trouble shoot bug reports
- Maintain build pipelines and cloud infrastructure
- Update and create cordova plugins for communication between our app and the native devices hardware

Full Stack Software Engineer – WooliesX / Woolworths Group

Dates of Employment: 2021 – 2025

- Delivered real-time features for a national grocery delivery platform using .NET Core, Angular, and SignalR.
- Led initiatives from design through deployment, collaborating cross-functionally to meet tight deadlines.
- Advocated for shift-left testing culture with Cypress and Jest; integrated automated testing into CI/CD pipelines.
- Worked extensively with Azure DevOps, Docker, and Terraform to manage build and release processes.
- Contributed to performance tuning, code reviews, and architectural discussions.

Owner & Operator – Kingston Security (Cash-in-Transit)

Dates of Operation: 2007-2019

- Founded and operated a specialised covert cash-in-transit service, overseeing end-to-end business operations in high-risk environments.
- Managed client relationships, transport logistics, risk assessments, and compliance with strict security protocols.
- Demonstrated strong time management, problem-solving, and decision-making under pressure while maintaining confidentiality and operational integrity.
- Experience in managing schedules, handling sensitive data, and maintaining consistency and trust in solo roles.

EDUCATION & CERTIFICATIONS

- Certificate III in Security Operations (Expired)
- Certificate II in Security Operations (Expired)
- Higher School Certificate (HSC)
 - Electives: 2/3 Unit Computer Studies, Business Studies

SOFT SKILLS

- Clear and confident communicator
- Proactive and self-directed
- Strong time management and solution design skills
- Collaborative and team-oriented mindset

- Committed to continuous learning and improvement
